

6516205035.txt

I have been an XM Radio subscriber for close to a year now. It is one of the most innovative, entertainment sources I have found. Now, with the local weather and traffic being added I can access this information at any time and not wait for a terrestrial commercial station to decide when to broadcast this important information. As I travel frequently, this local information has been a great service for me.

I respectfully request that you reject the National Association of Broadcasters petition 04-160.

Thank you.

Warren S. Joseph
